Webmaster- Roger Walkemeyer

Next Meeting is Thursday July 17th at 7:30 pm.

Please note that the meeting site may change, check the Web Site for new information before the meeting.

The June Meeting was kind of sparsely populated because of the last minute change of venue for the meeting. We hope to have a solution to the meeting location problem sorted out before too long. The problem is that the building was sold, and the new owners haven't committed to us as to whether, or not, they are going to allow us to use the facility. Please stay tuned to the web site for updates. Especially, check a day or two before the July meeting.

4th of July fun fly and pot luck. It was a warm (110 degree) and sunny day. The sun was shining and the crowd stayed under the patio covers with occasional forays out into the sun to fly, then back into the shade. Rich set up the grille, cheeseburgers, hotdogs, pizza, fruit salad, Nelson's specialty, and deserts were the order of the day. A passing cardiologist may have had a fit, but the rest of us had a great time.

An e-mail of interest to everyone:

I Heard today that Bob Hurd had his truck broken into and four planes and all his controllers and buddy cords taken. I can't believe that some one would do this to him. He teaches my 13 year old to fly and myself, he is there all day to help everyone fly 5 days a week and a strong eight hours each day, he is so giving of himself, I think we should give Bob an even bigger surprise and get everyone to help buy what he lost back. Please Help! ..Rex N Branham

Please spread the word and give a donation of whatever you can to Bob, one of the club members at the field, or call a friend that can help out. Bob has given so much to the hobby and to the people at the field, lets see what we can do to help him out. Trainers, radio equipment, buddy box, cash, items you won in the raffle, whatever you can spare.
– Thanks – editor.

Coming Events:

Aug 30 Sat

Night Fly

Jean Dry Lake

The weather is a tad warm for daytime events in the summer. So we like to schedule nighttime events, when the weather is cooler, at this time of year .

For those that haven't flown at night before, come on out! It's a knee knocker! The experience will help your circulation. Whether you fly or watch.. We come together at dusk when the temps are going down and wait for total dark to begin the night flying. There are miles of runway to practice on before dark and check your "weight and balance".

Bring your "light sticks" a stout heart, and steady fingers. Be sure to bring at least two different colors of "light sticks" one color for each wing tip. It will be a dark, moonless, night. All the better to see the lights on the planes.

A man was walking in the city, when he was accosted by a particularly dirty and shabby-looking bum who asked him for a couple of dollars for dinner.

The man took out his wallet, extracted two dollars and asked, "If I gave you this money, will you take it and buy whiskey?"

"No, I stopped drinking years ago, the bum said.

"Will you use it to gamble?"

"I don't gamble. I need everything I can get just to stay alive."

"Will you spend the money on glow plugs and model fuel?"

"Are you NUTS! I haven't flown R/C in 20 years!"

The man said, "Well, I'm not going to give you two dollars. Instead, I'm going to take you to my home for a terrific dinner cooked by my wife."

The bum was astounded. "Won't your wife be furious with you for doing that? I know I'm dirty, and I probably smell pretty bad."

The man replied, "That's OK. **I just want her to see what a man looks like who's given up drinking, gambling, and R/C planes.**"
